PREFACE

بِسْمِ اللَّهِ الرَّحْمَنِ الرَّحِيمِ

السلام عليكم ورحمة الله وبركاته

First of all, my thank goes to Allah SWT, the Greatfull and the Mercifull, the only reason I am still living my life and present this Undergraduate Thesis.

I am happy presenting you a Thesis titled "The Indonesian Economic Strategy to Maintain the Economic Relationship with Japan". The thesis describes the economic relationship between Indonesia and Japan since it began in 1958. But in order to get a precise analytical result, the research scope was limited to the data in 2002 up to 2007. The data was also limited, only economic-based data considered as the material of the research.

The research describes the kinds of the economic relationship, the economic relationship's contribution to the Indonesian economy and the declining of the relationship. I proposed a hypothesis which stated "Indonesia attempt to maintain Japan as its economic partner by arriving at a more binding agreement, named Indonesia-Japan Economic Partnership Agreement". The hypothesis was correctly proven.

The research is a part of academic evaluation. As an academic evaluation, it is an obligation and I am proudly present the thesis to my University, my parent and my family and any one who need a data of the Indonesia-Japan economic relationship. Finally I really thank full to the
