

ABSTRACT

COOPERATION BETWEEN INDONESIAN GOVERNMENT and GERMAN GOVERNMENT

(Case study: Regency Klaten as one of technical aid receiver area of Germany)

Circumstances of Indonesia Economics which medium experience of the change from system centralistic head for the area autonomy make the Local Government face some new problem. Economics, which before now center in one dot, now become the responsibility of their own regency. So that area expected able to move their economics system to be able to face the autonomous era. Many of them feel do not ready to with this change.

The local government have not ready with this chance it's made Indonesia Government deputized by BAPPENAS with Germany Government deputized by GTZ give the aid in the form of technical aid. Program the aid is by making an Regional Economics Development program (RED). Program the regional economic expansion executed in region of Central Java covering regency: Surakarta, Boyolali, Sukoharjo, Wonogiri, Sragen, Klaten.

GTZ is a laboring international cooperation institute for the development of has continuation in some world. GTZ manifestly provide the solution forwards for some economic problem, social development and ecology of world globally. GTZ support various reform and process the change that vary. All this activity is addressed as complement utilize to improve the condition of human life and as elementary dot have continuation.

Germany Government in this case only gives the support by giving technical aid in the form of suggestion gift, facility, training and ready of consultant service. Governmental of Germany through GTZ do not directly give the aid in the form of money but have been realized in the form of training, ready of consultant service, visit execution work to Germany. Each every activity and also project done do not all expense of the responsibility of party GTZ but there are some expense which is the responsibility of Local Government.

Germany Aid of this GTZ-RED is executed among 2004 until 2007. Becoming, advantage obtained by Kabuapten Klaten with the existence of this aid not yet is so seen because this cooperation to date newly walk about one year and in this time the aid project still walk and there is which uncommitted.

Aid, which is passed to Kabuapten Klaten specially, and this area Subkabupatent is expected will bring the positive impact and can improve the
