

INTISARI

Pengawas Menelan Obat (PMO) adalah orang yang mengawasi penderita TBC minum obat setiap harinya. Dengan Keberadaan PMO ini bisa diharapkan penderita betul dan teratur minum obat setiap harinya dan akan sembuh pada masa akhir pengobatannya. Penelitian ini bertujuan untuk mengetahui pengaruh Pengawas Menelan Obat (PMO) terhadap keberhasilan pengobatan TBC.

Subyek penelitian ini adalah 30 pasien TBC Puskesmas Batang 1 Kabupaten Batang Jawa Tengah yang sudah mendapat paket OAT dan kira-kira berumur 18 sampai 54 tahun. Dalam penelitian ini pasien TBC menjawab kuesioner yang ditanyakan oleh peneliti. Kuesioner ini berisi tentang keberadaan PMO, riwayat pengobatan, pendapatan keluarga dan pendidikan pasien. Setelah didapatkan data masing-masing variabel, kemudian data dianalisis dengan metode regresi logistik.

Hasil analisis untuk Pengawas Menelan Obat (PMO) terhadap keberhasilan pengobatan TBC didapatkan 0,001 dengan angka signifikansi $< 0,05$

157000

The first part of the paper is devoted to the study of the asymptotic behavior of the solutions of the differential equation $y'' + p(x)y' + q(x)y = r(x)$ as $x \rightarrow \infty$. The second part is devoted to the study of the asymptotic behavior of the solutions of the differential equation $y'' + p(x)y' + q(x)y = r(x)$ as $x \rightarrow \infty$. The third part is devoted to the study of the asymptotic behavior of the solutions of the differential equation $y'' + p(x)y' + q(x)y = r(x)$ as $x \rightarrow \infty$. The fourth part is devoted to the study of the asymptotic behavior of the solutions of the differential equation $y'' + p(x)y' + q(x)y = r(x)$ as $x \rightarrow \infty$. The fifth part is devoted to the study of the asymptotic behavior of the solutions of the differential equation $y'' + p(x)y' + q(x)y = r(x)$ as $x \rightarrow \infty$. The sixth part is devoted to the study of the asymptotic behavior of the solutions of the differential equation $y'' + p(x)y' + q(x)y = r(x)$ as $x \rightarrow \infty$. The seventh part is devoted to the study of the asymptotic behavior of the solutions of the differential equation $y'' + p(x)y' + q(x)y = r(x)$ as $x \rightarrow \infty$. The eighth part is devoted to the study of the asymptotic behavior of the solutions of the differential equation $y'' + p(x)y' + q(x)y = r(x)$ as $x \rightarrow \infty$. The ninth part is devoted to the study of the asymptotic behavior of the solutions of the differential equation $y'' + p(x)y' + q(x)y = r(x)$ as $x \rightarrow \infty$. The tenth part is devoted to the study of the asymptotic behavior of the solutions of the differential equation $y'' + p(x)y' + q(x)y = r(x)$ as $x \rightarrow \infty$.

ABSTRACT

Medicine Intake Controller (PMO) is person who control drugs intake in Tuberculosis's patient every day. By the present of PMO can be expected can remind the TBC's patient to take medicine regularly on a daily and recover at the end of their treatment. This research is intended to find out the effect of PMO toward the achievement of TBC treatment

The subject of this research is 30 TBC's patient of Batang 1 Community Health Center in Batang Regency of Central Java who had OAT package and their ages ranging 18 to 54. In this research TBC's patient answered questioner that asked by the researcher. The question in questioner are about the attendance of PMO, History of medicine intake, education of patient, and family income. The data of each variables obtained was analyzed using a logistic regression method.

The result of analysis was 0,001 with significance number $< 0,05$ It means

MEMORANDUM

1. The purpose of this memorandum is to advise you of the results of the investigation conducted by the FBI on the matter of the alleged activities of the Communist Party, USA, in the State of New York, during the period from 1945 to 1950.

2. It is noted that the investigation was conducted in accordance with the provisions of the Espionage Laws, Title 18, U.S.C., and the Internal Security Laws, Title 50, U.S.C., and the Executive Order of the President of the United States, dated March 12, 1947, relating to the Communist Party, USA.

3. The results of the investigation are set forth in the report of the Special Agent in Charge, New York, dated and captioned as above.

4. It is noted that the investigation has developed information which indicates that the Communist Party, USA, in the State of New York, has been active in the promotion of the activities of the Communist Party, USA, in the State of New York, during the period from 1945 to 1950.

5. The results of the investigation are set forth in the report of the Special Agent in Charge, New York, dated and captioned as above.

6. It is noted that the investigation has developed information which indicates that the Communist Party, USA, in the State of New York, has been active in the promotion of the activities of the Communist Party, USA, in the State of New York, during the period from 1945 to 1950.

7. The results of the investigation are set forth in the report of the Special Agent in Charge, New York, dated and captioned as above.

Very truly yours,
Special Agent in Charge
