PREFACE

Praise to Allah SWT for his guidance and mercy, so that I was able to finish the research and this undergraduate thesis titled "Evaluation on Public Procurement Transparency, with a Case Study of Electronic-Based Procurement Service Unit (LPSE) of Central Sulawesi Province in 2015". Formerly, I would like to thank to my supervisor, Dr. Achmad Nurmandi, M.Sc. for making it possible for me to get through all the process with his consent and advices. Next would be my gratitude to my examiner, Mrs. Emi Zhriyati, M.A., and my proofreader Mr. Enrique Batara and Mrs. Chanda. This thesis cannot possibly be completed without the help from all of you.

The aim of this research was to promote transparency on the government administration, especially on public procurement. Through this study, it is expected to form a better relationship between the people and government over transparency and public trust. As the writer, I realized this thesis has not been a perfection and have a lot deficiency on it. However, I hope this study can contribute to the political and social literatures, especially government affairs and administration studies. Therefore, critiques and recommendation are welcome for a better output in the future.
