## EXTENDED GRATITUDE

Here is my deepest gratitude I would like to extend through these pages and I also would like to dedicate this undergraduate thesis to whom I personally wanted to thank:

1. First of all I want to give my most genuine thank to my beloved parent Ibu Sukarni and Bapak Muhammad Suruji who have been giving an endless support since day one I begun to see the world with my own eyes until this very day of my life. My dear mother and father, you have become my strongest and fair supporters I have my entire life. There is no single day passed you both not giving the supports I need. You both have always known and tried to understand what I need in going through this life journey of mine. Thank you for raising me into the one I am today. I am beyond grateful for your existence and even more grateful for all the love you both give, the care you both show, the lessons you both teach I can only learn from you both. My dear parent, I have always looked up to you and I always will to become a better person every day, to always keep the important values of our life and try to apply it into my everyday life. Ibu, Bapak, thank you for telling me to always do what is right instead of doing what feels good. I will forever be grateful for both of you, Ibu and Bapak, you both mean the world for me.
2. To my family, my brothers M. Nazif Mauludi, M. Hasan Syarif, M. Aqwamut Thoriq, and my sister Gina Rohmatin, thank you for all the support. I would never be strong enough to go through a bad day without you guys. You guys have always done what brothers and sisters do to each other. Thank you for sharing the laugh with me.
3. I would like to send my biggest appreciation to my advisor Bapak M. Faris Al Fadhat, S.IP., M.A., Ph.D for all the guidance and patience through all the process of the making of this undergraduate thesis. You are the best, Sir.

- I would like to also thank the examiners of both my thesis proposal and the examiners of my thesis defense.
4. I would like to thank my sister from another mother, Medina Safira Suma. Who had always been giving me a fair support in finishing this undergraduate thesis. Thank you for always making your time for me anytime I need you. Thank you for always checking me out when in fact I am far away from home. You have filled a sister spot during my college life and I am so grateful for that.
  5. Dear my “since day one” best friend, Erzalina Manda Kumara. Thank you for filling my college life with cute fights, laughs, and deep talks. Saying “hi” to you on our very first day was one of the best decision I made. I guess most of my college memories have you in it and I am so grateful for that. Again, thank you for always understanding me, thank you for being kind, thank you for being so supportive. We both know you always have that “everyone bestfriend materials.” Keep being the annoying yet super thoughtful version of yourself, Manda.
  6. To Wynna Khalida Sekarsari, the one who knows all of my weaknesses. I would like to say thank you for always be there since the early year of college until the very end. Thank you for the understanding and the emotional supports you always give to me. Thank you for being my living diary I can always tell everything.
  7. To my “skripsian-sobi,” Stipani Salsabila, Dhony Joan, Rahmad Insani, and Alya Renggangis. Thank you, you guys made me another “sobi” category in the kinda-last moment of college. For Pani, thank you for the support and encouragement you always give to me. You are so thoughtful and we both know it. Thank you for always listening to me and being there when I need you regardless of our undergraduate thesis things, hehe. For Dhony and Rahmad, thank you boys for being so kind and understanding. I spent most time finishing my thesis with you both and those were one of the best of times. I annoyed you both a lot yet you were always fine with it. So, thank

you so much for that. And to my little sister, Alea, thank you dek for always accompanying and supporting me all this time. We did not know each other that long but it just felt like we could be bestfriend, or sister? Hehe.

8. To my girls “Onyon,” Wynna Khalida, Syifa Nadiya, Dheanada K, Azka Azzahra, Arnisa Ilmita, Wynne Khalida, Lida Maulida, Erzalina Manda, Medina Safira, Stipani Salsabila. Even though our group chat felt like “kuburan” most of the time, but believe me most of the good memories I have are with you guys. I am beyond grateful for having you all.
9. I would like to thank my team “Bengeut Glandoetan” a.k.a my Glan Squad in particular, my favorite person Betto Akbar, my cool leader Ihsan Adi, my gokil sister Niar Maharani, my 24/7 sister Wynna Khalida and Medina Safira, our cool photographer Rayhan Afifudin, my kind-hearted Alvin Kharismanda, our “mas giii” Gian Indyra, our guitarist Zaky Aziz, my super calm pal Pittra Amrullah, one of our best chef Fachrizal Anshori, the annoying yet super understanding Fadel Quraysh, and our typical cool guy Ruly Arief. You guys, are just the best team I have ever had. Spending a month with amazing people like you guys are just one of the most memorable thing in my life. I learnt a lot from every one of you guys. And to my KKN International Davao team in general, thank you guys for the good cooperation and the hard work you guys gave for this team. Without you guys this KKN would not be successful.
10. My “Anaknya Pak R” team, Andi Firmansah, Chaliza Usman, and Alya Rengganis. Thank you for teaching how a good team work like. Thank you for teaching me that trusting each other is one best key to work our responsibilities.
11. I would like to say thank to all my “IPIRELIANS” mates who have given all the supports.
