## DEDICATION PAGE

Assalamualaikum Wr. Wb

In this page, the writer expresses her outmost gratitude to Allah swt. for His blessings and mercy, the ultimate power source in the writing process of this undergraduate thesis with the title “**Media and Hamas: How Media Framing Influences the Discourse**”.

I also dedicate this thesis to my parents and brother. Without their prayers and support, I would not have been able to get to this point. Most importantly, to myself, Nabila Humairo Henarni, thank you for fighting this far, for persevering through the challenges, and for never giving up, even when the path seemed difficult and uncertain. This accomplishment reflects not just the knowledge and abilities you have gained, but also your character and inner strength.

## **EXTENDED GRATITUDE**

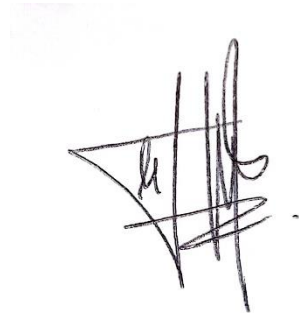

Within this page, I would like to extend my gratitude for all forms of supports given to me during my college years. I would like to personally thank:

1. To my beloved mother, father, and Habibie. Undertaking this study entails a significant amount of pressure, particularly when I watch other people choosing their own life paths. Nevertheless, you continue to serve as a reminder to me that we should remain focused and express our gratitude to Allah SWT for all of his favors in this life. In addition, I am grateful to you since you consistently instruct and encourage me to be humble and to worship at the proper times. Throughout my education years, I had numerous obstacles, and I might have given up without your support.
2. Agnya Shaufa, my best buddy since we started studying at Yogyakarta Muhammadiyah University in 2019. Despite our different life paths, I am extremely grateful that you continue to support the decision I have made. Everything else being equal, I sincerely appreciate your efforts to lift my mental state whenever I'm at my lowest.
3. My family, both on my parents' side. I am certain that you always wish me the best, even though you are unaware of what I have been up to in Jogja.
4. To my fellow students, I would want to express my gratitude for both the positive and negative experiences we shared this year. Even if I was somewhat occupied with myself at the beginning of the semester, I appreciate that you still want to try to make friends with me.
5. A special thanks to Kak Novrel Esa Yubel, Kak Aydil Safitri, Kak Sakinah Sofia Rosana, and Dintha Kharisma Almeira. You are the reason we have come this far as a team. Without Kak Novrel, Airo may never have had the opportunity to publish so rapidly. Without Kak Sofi, Airo may not have been able to freely discuss anything that occurred in my life during this study period. Without Kak Ayi and Dinta, Airo might have spent this lecture period alone.
6. My Anna and Ezatee. I truly love you! I'm grateful for your random phone calls and the hot and current details about your life that you always share. I am really excited to see you soon.

7. Bu Dian Azmawati, thank you for being the best lecturer and mother during this period. I have learnt so much from you and I will make sure that it is not going to be wasted just like that.
8. Last but not least, I would like to dedicate this thesis to Bintang Maulananda Agung, the Star in my life. The world ought to be aware of how beautifully you always treat me; you never behave or say anything hurtful to me. I never thought you would be the one to accompany me on this journey. Thank you for always being there for me. Although it isn't enough, I appreciate the time you take to spend with me. Hopefully, our goals and dreams will soon be realized. I love you mamas, unyunyuyu.
