ACKNOWLEDGEMENT

First of all, I would like to express my gratitude to Allah SWT because by his grace and permission I was given health and strength so that I could complete this thesis. I would also like to express my gratitude to the prophet Muhammad SAW who always brings his people to goodness.

I express my gratitude to Mr. Endro Dwi Hatmanto, S.Pd., M.A., Ph.D. for serving as my advisor throughout the entire process of composing this skripsi. With the assistance of his guidance, I have successfully completed the writing of this skripsi. Additionally, I express my gratitude for the extensive knowledge that he imparted, which enhanced my writing abilities and broadened my insights.

I would especially like to thank my beloved family, especially my mother, Mrs. Sri, and my father, Mr. Asep, who have always been the best supporters in my life journey and will never stop being supporters in my future life. Without their struggles sacrifices and their prayers every moment, I would never have reached this point. I would also like to thank my two older siblings, Maulidya and Rizal, who have also been a guide for me, the youngest sibling.

Throughout the process of writing this thesis, I also encountered numerous currents and waves. Thanks to my college friends, Zahra, Titik, and Tika for providing a solid foundation for me to navigate these currents and waves. I would also like thank Yuke, my best friend and younger sister, who has always kept me safe. In addition, I would like to thank everyone who came even if they didn't

stay. Thank you for all the support and good memories as well as the lessons left behind as part of growing up.

Last but not least, I would like to thank myself for being patient and strong enough to go through each process, no matter how difficult it was. I want to thank me for always trying to get back up after falling several times and for continuing to walk with every wound and for reaching this point.
