I declare that this thesis entitled "The effect of Corporate Social Responsibility Disclosure and Firm Size On Company Value With Environmental Social Governance Disclosure as A Moderating Variable (Empirical Study on Mining Companies Listed on the Indonesia Stock Exchange in 2020 – 2022)" does not contain any work that has ever been submitted to obtain a bachelor's degree at a University, and to the best of my knowledge there is no work or opinion that has ever been written or published by others, except those that are written referred to in this manuscript and mentioned in the Bibliography. If written or published by someone else, then the work is cancelled.
