## **Acknowledgements**

*Alhamdulillah*, my highest thankful to Allah SWT who always gives health and opportunity to complete this undergraduate thesis. I would like to say a big thank you to my family who always pray and support me in any situation, especially my mother Cut Surya Dewi and my father Susilo Hadi who helped me during my education and helped me to complete it. Not forget, to my brother Satria Sukananda and my younger brother Muhammad Krisna Hadi Wijaya and to my entire extended family and my late father Seto Soedibyو who are always in my heart.

Furthermore, I would like to say thank you very much for my supervisor Mr. Puthut Ardianto for his every single valuable guidance and patience during the process of writing my *Skripsi*. I would also like to thank to the lecturers who have helped providing participants recommendation and the four participants who agreed to be interviewed, without all of you and all of your help this study would not have been completed.

Then, I would like to thank my ELED classmates who became my close friends for always helping me in every situation, making my campus life very meaningful. Don't forget to all my best friends who are always there under any circumstances. Last but not least, I want to thank myself, for believing in myself, for doing all this hard work, for having no days off, for never quitting, for just being myself at all times.
