## **ABSTRACT**

This Undergraduate thesis tried to discuss about foreign policy and global health initiative. Seven countries jointly established a network of Foreign policy and global health (FPGH). To jointly driven health issues into the international arena, Thailand can mobilize as a tool for conducting foreign policy as well. Thailand hopes that this partnership will be beneficial to the people of Thailand as well. Thailand is a success in pushing Universal Health Coverage 30 Bath. The success of this policy made people in country have access to better services. Thailand considers that is possible to accomplish then make many countries started with the goal of universal coverage access to public services, prevention and treatment as appropriate. FPGH is followed Millennium Development Goals (MDGs).MDGs is a program from UN. MDGs are the world's time-bound and quantified targets for addressing extreme poverty in its many dimensions-income poverty, hunger, disease, lack of adequate shelter, and exclusion-while promoting gender equality, education, and environmental sustainability. Therefore, Thailand can reduce the death rate because people have been treated without worrying about the cost. In this research, the writer use an extensive of relevant published materials such as books, journals, reports, newsletters, official website and other sources o a wide variety of topics related with the subject of the topic.
