INTISARI

Penelitian yang berjudul evaluasi penataan kawasan agrowisata di Kebun Buah Mangunan, Kecamatan Dlingo, Kabupaten Bantul dilaksanakan pada bulan Desember 2015 sampai Februari 2016.

Penelitian ini menggunakan metode survei dengan sampel 23 orang pengelola Kebun Buah Mangunan, 5 orang pedagang, dan 100 orang wisatawan lokal dengan insidental sampel kuota. Penelitian ini dilengkapi dengan pengumpulan data primer dan sekunder yang dianalisis secara deskriptif dan spasial untuk menentukan konsep penataan kawasan agrowisata.

Hasil penelitian ini menunjukkan bahwa berdasarkan eksistensi tanaman buah-buahan, Kebun Buah Mangunan perlu mendapatkan perawatan yang intensif seperti pemupukan dan penyiraman. Perencanaan pengembangan agrowisata Kebun Buah Mangunan diawali dengan perbaikan jalan, tempat parkir, mushola, toilet, dan wahana bermain seperti *outbond* serta wahana sepeda air di kolam.

Kata Kunci : Penataan Agrowisata, Kebun Buah Mangunan, Pengembangan Infrastruktur

ABSTRACT

The research entitled the evaluation of structuring of Agrotourism Ragion at Orchard Mangunan, Dlingo District, Bantul Regency was conducted from December 2015 up to February 2016.

The research was done using survey method with 23 staff of Orchard Mangunan, 5 traditional traders, and 100 local tourist who were chosen by incidental sampling quota. The research was completed by primary and secondary datas collecting which would be analyzed descriptively and spatially to determine the concept of Agroturism structuring.

*The result showed that based on fruit plant existences, Orchard Mangunan need intensively agronomic treatments such as fertilizing and watering. The plan of Agroturism development Orchard Mangunan should be started with the building of physical infrastructure (road, parking park, mosque, gazebo, and toilets) and playground zone (*outbound* and water park).*
