Acknowledgement

First, I would like to express my gratitude to Allah SWT, who has given me health, well-being, and strength in completing this skripsi. Then, my sholawat and greetings go to the Prophet Muhammad SAW, who has guided me toward a brighter life. My highest appreciation goes to Mr. Endro Dwi Hatmanto, S.Pd., M.A., Ph.D. as my skripsi supervisor. Thank you for giving your time, thoughts, and energy and also giving me guidance even at home when I had problems related to completing this skripsi. I am very grateful for your advice, motivation, encouragement, and patience in completing this skripsi. This skripsi would not have gone smoothly without his help.

I would like to thank my parents, who have provided encouragement and support throughout my studies. My motivation and willpower will not be separated from the role of my parents, who became my strongest encouragement in completing this skripsi. I dedicate this skripsi specifically to my parents and my brother.

I would also like to thank the lecturers and staff who have given me a lot of knowledge that is very useful for my future. I would also like to thank my friends and classmates for the stories, dramas, and memories you have given to me. You are all figures who have given me many lessons in life, especially in balancing feelings and logic. One of you may be the answer that God has given to me. Last

but not least, to all my friends, I hope you can achieve your dreams. I pray that you are happy and safe in this world and the hereafter.

Lastly, I would like to thank myself, Edi Sucipto, who has gone through this process with enthusiasm and never give up. Thank you for always trying to convince myself and the people around me to keep doing the best. Thank you to myself for overcoming many things that did not meet my expectations. Thank you for convincing yourself that you can do it even though the things you do look impossible. From the process of working on the skripsi that has passed, you know that doubting yourself is the fatal mistake that has ever crossed your mind. The strong intention, coupled with effort and prayer, resulted in the best scenario I ever got. From the process I was done yesterday, I realized that intention is very important in the process of achieving success. This may only be the beginning of many new things I will discover about the future, but one thing I am sure of is that when there is willpower and prayer, success is not an illusion. Hopefully, this will make me more excited and able to get what I want. Aamiin
