

ABSTRAK

Penelitian ini bertujuan untuk mengetahui hubungan antara strategi menghadapi masalah dan tipe kepribadian introvert dengan motivasi belajar siswa MAN Sabdodadi Bantul. Terdapat dua variabel yang berfungsi sebagai variabel bebas dalam penelitian ini yaitu strategi menghadapi masalah dan tipe kepribadian introvert, sedangkan variabel tergantungnya adalah motivasi belajar siswa MAN Sabdodadi Bantul.

Hipotesis mayor penelitian ini adalah ada hubungan antara strategi menghadapi masalah dan tipe kepribadian introvert dengan motivasi belajar siswa MAN Sabdodadi Bantul. Terdapat dua hipotesis minor dalam penelitian ini. Hipotesis minor pertama yaitu ada hubungan yang positif antara strategi menghadapi masalah dengan motivasi belajar siswa MAN Sabdodadi Bantul. Hipotesis minor kedua yaitu ada hubungan yang positif antara tipe kepribadian introvert dengan motivasi belajar siswa MAN Sabdodadi Bantul.

Sampel penelitian ini berjumlah 80 orang siswa MAN Sabdodadi Bantul, Yogyakarta, yang dilakukan melalui teknik *random sampling*. Angket digunakan untuk mengumpulkan data dan data dianalisis dengan menggunakan analisis regresi.

Hasil penelitian menunjukkan bahwa ada hubungan yang sangat signifikan antara strategi menghadapi masalah dan tipe kepribadian introvert dengan motivasi belajar siswa MAN Sabdodadi Bantul. Hipotesis minor pertama diterima, ada hubungan yang positif dan sangat signifikan antara strategi menghadapi masalah dengan motivasi belajar siswa MAN Sabdodadi Bantul. Hipotesis minor kedua penelitian ini juga diterima, berarti ada hubungan yang positif dan sangat signifikan antara tipe kepribadian introvert dengan motivasi belajar siswa MAN Sabdodadi Bantul.

Kata kunci: motivasi belajar, strategi menghadapi masalah, tipe kepribadian introvert.

ABSTRACT

This research was intended to find out the correlation between problem solving strategy and introvert personality type with study motivation students MAN Sabdodadi Bantul. There were two variables function as independent variables: the problem solving strategy and the introvert personality type, the dependent variable was study motivation students MAN Sabdodadi Bantul.

The major hypothesis this research was a correlation between problem solving strategy and introvert personality type, with study motivation students MAN Sabdodadi Bantul. There were two minor hypothesis. The first was the positive correlation between the problem solving strategy with the student's study motivation MAN Sabdodadi Bantul. The second was the positive correlation between the introvert personality type with the student's study motivation MAN Sabdodadi Bantul.

Eighty Students of MAN Sabdodadi Bantul Yogyakarta were involved in this study, acquired by random sampling technique. For collecting data applied the questionnaire method was applied and analyses by regression technique.

The result were indicated that there was a significant correlation between problem solving strategy and introvert personality type with study motivation students MAN Sabdodadi Bantul. The first minor hypothesis was supported the data, there was a positive and significant correlation between problem solving strategy with study motivation students MAN Sabdodadi Bantul. The second minor hypothesis was also supported by the data. There was a positive and significant correlation between introvert personality type with study motivation students MAN Sabdodadi Bantul.

Key words: study motivation, problem solving strategy, introvert personality type.
