## ACKNOWLEDGEMENT

First and foremost, all praise belongs to Allah SWT for all His blessings and guidance that have been given to me in completing this undergraduate thesis that would never be done without the presence of Him. The preparation that I achieved in completing this undergraduate thesis was assisted by various parties, both morally and materially, so that this thesis was completed well. Therefore, I would like to express my deepest and unending thank you to:

1. My beloved parents, Bapak Diecky Ratno Wusono, S.E., and Ibu Dewi Hikmawati, S.E., who always provide their continuous prayers and support so that I can complete my responsibilities with joy. I would never have enjoyed so many opportunities during my college years without any love from you. Thank you Pa, thank you Ma.
2. My forever *Adek*, my forever annoying younger brother named Wiki Al-Khalifi Ratnoputera, I would like to express my huge thanks to you for constantly being an 'alarm' for me during this thesis writing process by frequently asking a very simple (yet so sarcastic) question, "*Kapan kamu wisuda, Kak?*" which makes me even more motivated to complete this thesis without procrastinating too often.
3. The honorable Ibu Dr. Dian Eka Rahmawati, S.IP., M.Si., I deeply thank you for your willingness to be my thesis advisor, who guided and made it very easy for me to go through the entire process of preparing and writing this undergraduate thesis. From the proposal to the final thesis seminar, you always motivated me to continue working diligently without putting any pressure. May Almighty Allah always bless you with health, wealth, and prosperity. Once again, thank you for your guidance, Ibu Dian. I am very grateful to be your student.
4. My lovely cousin, my lifeline, Citranti Chandradewi! Nobody else could've been my soul sister but you, and I'm grateful for that. Thank you for always being there for me through our thick and thin, thank you for being the one I can rely on no matter what, thank you for always finding the funny side in every situation. I am so thankful for the laughter and good times we have shared together, especially during our important '*skripsi gonjang-ganjing*' phase. If you read this, you might feel disgusted, but I'm telling you, your love and support have always been my anchor. I hate (love) you, Cit!

5. The most soft-spoken man I've ever met, the Sundanese man I always call with the Javanese tag, Mas Dilan. Thank you for faithfully completing me by giving the 'very exciting rollercoaster ride' while I was working on this thesis phase. Thank you for always being there through our highs and lows. See you until we're in The Land of Windmills, until we're in Amsterdam Metro when we get home from work, until we become Dutch cyclists, until the grip of this greedy regime falls, until the revolution of Indonesia Raya Merdeka occurs. Long live Q and D.
6. The one and only, my pitch black cat, Puma! My sweet boy, you know the perfect moment to distract me and give your best meow and purr to provide the comfort that I need during this process. Thank you for always reminding me to slow down in this hectic and overwhelming phase. I wuff you so much, Pumpumsurumpum!
7. Lastly, to the woman named Indira Tsaqifa Ratnoputeri, well done. I know this journey was full of thunderstorms, and I blamed you so much back then. Without you even realizing it, this phase of life is shaping you and you are truly ready for it. Now, go back to reading those pretty heavy and thick books, watching your comfort movies, listening to those nostalgic songs that give you goosebumps, eating those good foods, visiting those peaceful places, and meeting people who make your gummy smile appear. Live, live, and live. I will always be thankful for you. Cheers!
