Acknowledgement

First and foremost, I would like to express my deepest gratitude to Allah SWT for all His blessings, grace, and guidance that I have felt during the preparation of this thesis. Without His help and grace, I would not have been able to complete this thesis properly.

My sincere appreciation goes to my parents, Mr. Dalhami and Mrs. Ida. Their sincere love, support and sacrifice have given me the foundation to achieve my goals, one of which is to complete my current undergraduate education. Thank you to my beloved siblings, Salwa and Fadhil, for their endless support and motivation.

I am very grateful to my honorable supervisor, Mr. Jati Suryanto S.Pd., M.Pd. for his invaluable guidance, support, and encouragement throughout the research process. His patient guidance and insightful inputs greatly helped me in completing this research.

I would also like to express my deepest gratitude to all my friends who have provided support, encouragement, help, and prayers during my studies and the writing of this thesis. Without them, the preparation of this thesis might have been harder and more difficult.

At the end of completing this thesis, I would like to express my deepest gratitude to myself. The long journey in completing this thesis was full of obstacles and challenges, but I am grateful for the determination, discipline, and hard work that I have done.
