Acknowledgment

Bismillahirrahmanirrahim,

First of all, I would like to thank Allah S.W.T, who has given me the strength to complete this thesis to completion. Peace and greetings are always given to Prophet Muhammad S.A.W, hopefully we can get help later. I dedicate this thesis to the people who helped me and also supported me to always be thorough and not discouraged, so that it made it easier for me to be motivated and move forward.

I also offer a very big thank you to my supervisor Mrs. Sri Rejeki Murtiningsih, Ph. D. who has guided me in the process of working and also revised every word in my thesis so that it gets better and can get this far. In addition, thanks to Mr. Andi Wirantaka, S.P.d., M.Hum and Mr. Gendroyono, S.Pd., M.Pd. as an examiner in my thesis which I really appreciate for smiling and criticizing my thesis very carefully so that I can understand what errors are in the performance and every word in my thesis.

Then especially for my beloved parents Mrs. Latifah and my father who are calm in another world, and my beloved brother Nurkholis, Luqman Hidayat and who always give advice from patience in giving me an example and motivation, namely Siti Hamidah S.Psi, thank you from the heart me because without the support of my family, I may lack confidence and always unconfident. Since graduating from Senior High School, basically I wanted to go straight to work but it was my family that encouraged me to believe in continuing to a higher level of education and finally I was able to surpass it.

Lastly, I do not forget to say thanks to my classmates Muhadi, Rendra, Saikhul Mujib, Ridho, who always share stories and motivations so that I am always happy

and also all my friends on campus who I cannot mention all of them, but I will remember everything, and I really appreciate that. Finally, thank you to everyone who supports and motivates me so that I can complete my study, Alhamdulillah.
